

# Change Log

## Version 1.5.4

- Added LeanSelectable.GetFingersOrClear method for press selectable components.
- Added CanvasSwipeEdge demo scene to LeanTouch+.
- Modified LeanRotate to support press selection.
- Modified LeanScale to support press selection.
- Renamed Press2DTranslate demo scene to Press2DTransform.
- Renamed Press3DTranslate demo scene to Press2DTransform.
- Renamed PressUITranslate demo scene to Press2DTransform.

## Version 1.5.3

- Added Select3DTransformToggle demo scene to LeanTouch+.
- LeanPinchTwistMap renamed to LeanPinchTwistToggle.
- LeanPinchTwistToggle made more flexible.

## Version 1.5.2

- Added Camera2DMap demo scene to LeanTouch+.
- Added TwistTurn demo scene to LeanTouch+.
- Added TapToPopUp demo scene to LeanTouch+.
- Renamed DragTurn to DragTurn2D.
- Added DragTurn1D to LeanTouch+.
- Renamed DragMove to DragMove2D.
- Added DragMove1D to LeanTouch+.
- Added CameraOrbitCenterToggle demo scene to LeanTouch+.

## Version 1.5.1

- Fixed LeanFinger.StartedOverGui code.
- Fixed DragMove demo scene.

## Version 1.5.0

- Updated all demo scenes for better clarity and unified functionality.
- Added SwipeAngle demo scene.
- Added TransformUI + PressUI + SelectUI demo scenes.
- Added LeanScreenDepth for consistent and flexible depth calculation in all components.
- Added IgnoreStartedOverGui to all relevant components for consistency.
- Added IgnoreIsOverGui to all relevant components for consistency.
- Added RequiredSelectable to all relevant components for consistency.
- Moved LeanSelectable to example scripts and removed LeanTouch dependencies.
- Unified all transform components with UI and 2D/3D functionality.
- Moved all Smooth functionality to LeanTouch+.
- Moved all SwipeNoRelease functionality to LeanTouch+.
- Moved LeanPitchYaw to LeanTouch+.
- Moved core selection from LeanSelect to LeanSelectable to simplify implementation.

## Version 1.3.7

- Fixed console error in Select demo scenes.

## Version 1.3.6

- Added auto rotation settings to LeanPitchYaw.
- Added inertia settings to LeanPitchYaw.
- Improved LeanSelect code.
- Improved LeanSelectable code.
- Added Match2D demo scene to LeanTouch+.
- Added CameraOrbitInertia demo scene to LeanTouch+.

## Version 1.3.5

- Improved code formatting.
- Added DragRigidbody2D demo scene to LeanTouch+.
- Added DragRigidbody3D demo scene to LeanTouch+.

## Version 1.3.4

Fixed LeanSpawner type mismatch in some scenes.

## Version 1.3.3

Modified LeanSelectableRendererColor to use all renderer materials.

## Version 1.3.2
